

## Lawson Products Reports 2012 First Quarter Results

April 26, 2012

DES PLAINES, III., Apr 26, 2012 (BUSINESS WIRE) -- Lawson Products, Inc. (NASDAQ:LAWS) ("Lawson" or the "Company"), a distributor of products and services to the MRO marketplace, today announced its 2012 first quarter results for the period ending March 31, 2012.

Thomas Neri, president and chief executive officer, commented, "During the quarter, we continued to face revenue and expense challenges resulting from the operational issues that followed our ERP implementation in the third quarter of 2011 and weakness in the government segment. The effect of our operational issues in the third quarter has had a lagging impact on our customer retention. While the first quarter results were disappointing, I am pleased that we have made progress in resolving many of our ERP-related operational issues. Our focus is now on strengthening our customer relationships and engaging our sales force in restoring sales momentum."

### First Quarter Results

Net sales for the first quarter of 2012 were \$76.0 million versus \$82.6 million in the first quarter of 2011. The \$6.6 million decrease was primarily driven by a decline of \$4.4 million in sales within the government segment within bases that support troop deployment. We also generated lower freight revenues and experienced higher customer attrition. The declines were partially offset by one additional selling day and an increase within the strategic account segment. Average daily sales decreased 9.5% from the prior year quarter and 2.2% from the fourth quarter of 2011.

For the first quarter of 2012, gross profit was \$41.3 million versus \$49.9 million in the prior year period. The decrease as a percentage of sales from 60.5% to 54.4% was driven by lower freight recoveries, an increase in inventory reserves, and additional temporary labor. Additionally, a deliberate strategic shift toward higher volume national customers with lower margins and higher than normal attrition of smaller customers with higher margins negatively affected our results.

Total operating expenses decreased \$2.0 million to \$44.2 million in the quarter, compared to \$46.2 million in the first quarter of 2011. Selling expenses decreased to \$20.2 million in the first quarter of 2012 from \$22.2 million in the prior year quarter, primarily due to lower compensation on reduced sales levels. General and administrative expenses were flat at \$24.0 million for the first quarters of both 2012 and 2011.

Net loss for the first quarter of 2012 was \$1.8 million, or \$0.21 per diluted share, compared to net income of \$2.0 million, or \$0.23 per diluted share, in the prior year period.

Commenting on the results, Mr. Neri noted, "We have put programs in place to immediately address the current sales and gross profit trends, while managing our overall operating costs. Many of our recent investments necessarily have been of a long-term, transitional character. We believe the continued investments we are making in our business, including our state-of-the-art distribution center in McCook, Illinois and our revamped Web site will significantly improve our overall customer experience."
