

Lawson Products Reports Improved Third Quarter 2012 Results

October 25, 2012

--Positive Operating Income Excluding Severance Charge--

--Significant Progress in Cost Control and Margin Improvement--

CHICAGO--(BUSINESS WIRE)--Oct. 25, 2012-- Lawson Products, Inc. (NASDAQ:LAWS) ("Lawson" or the "Company"), a distributor of products and services to the MRO marketplace, today announced results for the third quarter ended September 30, 2012. As previously announced, on October 1, 2012, Michael G. DeCata became the Company's new president and chief executive officer.

Financial Highlights

- Operating income of \$0.1 million prior to severance an improvement of \$2.8 million over the prior year
- Earnings before interest, taxes, depreciation and amortization ("EBITDA") of \$0.6 million. Excluding severance, adjusted EBITDA of \$2.0 million an improvement of \$3.6 million over the prior year
- Ongoing implementation of the Company's previously announced \$20.0 million of annualized savings resulting from restructuring initiatives
- Sales per representative per day productivity improvement of 17.9% from a year ago

Third Quarter Results

Net sales for the third quarter of 2012 were \$72.0 million versus \$75.4 million for the third quarter of 2011. The decrease was mainly driven by an increase in the number of vacant sales territories from a year ago, one less selling day in the third quarter of 2012 compared to 2011, and lower freight revenues. Average daily sales declined 1.6% to \$1.143 million in the third quarter of 2012 from \$1.162 million in the second quarter of 2012 and from \$1.178 million a year ago. Although the number of vacant sales territories is up from a year ago, they remained fairly constant during the third quarter. Sales force productivity improved by 17.9% from a year ago and 2.6% from the second quarter.

Gross profit for the third quarter of 2012 was \$43.4 million versus \$42.5 million a year ago with the gross margin percentage increasing to 60.2% for the third quarter of 2012 from 56.5% for the year-ago quarter. This increase in gross margin was primarily due to an improved focus on controlling net customer pricing and other product-related costs, as well as managing the liquidation of discontinued products better than anticipated. This was partially offset by an increase in sales to national account customers, which carry a lower margin percentage.

Selling, general and administrative expenses ("SG&A") decreased by \$2.0 million for the third quarter of 2012 to \$43.3 million from \$45.3 million for the prior year period. This decline was a result of the previously announced cost savings initiatives along with lower selling and ERP-related expenses. These cost savings were partially offset by increased depreciation and facilities costs.

Excluding \$1.4 million of severance expense, primarily related to the retirement of the Company's former president and CEO, operating income was \$0.1 million for the third quarter of 2012. Including severance expense, the operating loss for the third quarter of 2012 was \$1.4 million compared to an operating loss of \$3.1 million for the prior year period.

Net loss for the third quarter of 2012 was \$1.3 million, or \$0.15 per diluted share, compared to a net loss \$2.2 million, or \$0.25 per diluted share, in the prior year period. Excluding severance expense of \$1.4 million, net income for the quarter was \$0.1 million, or \$0.01 per diluted share.

Corporate Highlights

- Leadership Michael G. DeCata joined Lawson as president and CEO on October 1, 2012. Mr. DeCata brings significant experience in MRO distribution. He previously served as president of Chef's Warehouse, a \$300 million specialty food distributor and has also held senior positions at United Rentals, WW Grainger and General Electric.
- Sales Force Transformation The Company is on target to transition its independent agents located in the United States to employees during the first quarter of 2013. Management expects minimal disruption while sales representatives continue to serve their customers.
- Distribution Network Consolidation Lawson completed the integration of the first of three Illinois facilities into its new state-of-the-art facility in McCook, Illinois. The Company expects to integrate the other two facilities over the next two quarters. The new facility will become the hub of Lawson's distribution network and will help to improve the Company's operating efficiency.
- Website Launch During the third quarter, Lawson completed the development and testing of its redesigned website. It will be launched beginning in the fourth quarter in phases that will continue into early 2013. The new website will be fully integrated with the Company's ERP system.

Mr. DeCata commented, "Third quarter results show an improvement from where the Company was just a quarter ago. In the coming quarters, we will renew our emphasis on improving sales by building upon productivity enhancements, utilizing our new ERP system as our foundation for growth and

restoring our sales force to a more effective level."

Conference Call

Lawson Products, Inc. will conduct a conference call with investors to discuss third quarter 2012 results at 9:00 a.m. EST on October 25, 2012. The conference call is available by direct dial at 877-317-6789 in the U.S. or 412-317-6789 from outside of the U.S. A replay of the conference call will be available approximately one hour after completion of the call through November 9, 2012. Callers can access the replay by dialing 877-344-7529 in the U.S. or 412-317-0088 outside the U.S. The PIN access number for the replay is 10016326#. A streaming audio of the call and an archived replay will also be available on the investor relations page of Lawson's Web site through November 23, 2012.

REGULATION G GAAP RECONCILIATIONS

The Company reports its financial results in accordance with U.S. generally accepted accounting principles (GAAP). However, the Company's management believes that certain non-GAAP financial measures may provide users of this financial information additional meaningful comparisons between current results and results in prior operating periods. Management believes that these non-GAAP financial measures can provide additional meaningful reflection of underlying trends of the business because they provide a comparison of historical information that excludes certain infrequently occurring or non-operational items that impact the overall comparability. See the table below for supplemental financial data and corresponding reconciliations to GAAP financial measures for the three months ended September 30, 2012 and 2011. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, the Company's reported results prepared in accordance with GAAP.
