

Lawson Products is an industrial distributor of maintenance and repair supplies, committed to helping customers improve their operating performance.

Under our Kent Automotive brand, we supply products and services to collision and mechanical repair shops as well as OEMs.

Through The Bolt Supply House, customers in Western Canada have access to products at several retail branches.

A comprehensive line of products, nearly 50,000 of which are maintained in inventory

Distributing products from our 300,000 square-foot facility in McCook, Illinois, as well as several strategically located distribution centers in North America

Shipping to customers in all 50 states, Puerto Rico, Canada, Mexico and the Caribbean

Approximately 1,000 sales representatives and nearly 100 sales managers and directors throughout North America

Products, technical information and more available on our websites: lawsonproducts.com, kent-automotive.com and boltsupply.com
